

How to Administer

The feline patient should receive one tablet two times per day, or as directed.

Feline formulas can be administered in a variety of ways, including:

- Whole tablet or crushed
- Dosed directly or mixed with food
- Cautiously, as a powder suspended in water given by oral syringe

To familiarize the cat with the supplement, it may be helpful to place one tablet beside the food bowl for two or three days prior to mixing the tablet with the food.

Product Facts

Amount per 1 Tablet (350 mg):

Proprietary Blend **290 mg**

Bovine kidney PMG™ extract, bovine kidney, bovine liver, veal bone PMG™ extract, bovine bone, defatted wheat germ, organic buckwheat (aerial parts) juice powder, organic buckwheat flour, bovine spleen, ovine spleen, amla extract, organic pea vine juice powder, organic oat flour, bovine adrenal Cytosol™ extract, organic alfalfa (aerial parts) juice powder, ribonucleic acid, organic kidney bean (aerial parts) juice powder, bovine heart PMG™ extract, New Zealand green mussel (*Perna canaliculus*) (shellfish), Spanish moss (*Tillandsia usneoides*), organic SP beet blend (organic Swiss chard juice powder, organic oat flour, organic beet (root), organic beet (leaf) juice powder), rice bran, enzymatically processed Spanish moss [(*Tillandsia usneoides*) and beet (root)], and porcine duodenum.

Other Ingredients: Calcium stearate and honey.

Please consult the actual product label for the most accurate product information.

BENEFITS:

- Facilitates support and natural rehabilitation of the kidneys
- Provides balanced cellular nutrition for all aspects of urinary system function

INDICATIONS FOR USE:

- Patients in need of renal support
- Hepatic patients in need of additional renal support

Nutritional Support for Renal Health

A proactive approach to feline renal health is important in clinical practice because renal challenges are one of the most common conditions affecting aging cats. Early intervention can maintain healthy kidney function and improve quality of life. For renal challenges, the kidneys should be supported along with the liver, cardiovascular system, and autonomic nervous system.

FEATURES:

Animal-based Ingredients

BENEFITS:

Targeted nutritional support for kidney cells, connective tissue, spleen, liver, heart, and adrenal glands.

- Organ meats contain higher concentrations of DNA, unique protein profiles, and essential vitamins and minerals.
- All raw animal tissues used are USDA-approved and sourced from facilities inspected by the USDA or the Canadian Food Inspection Agency (CFIA).¹

FEATURES:

Whole Food-based Ingredients

BENEFITS:

This synergistic blend of nutrient-dense, minimally processed components offers a holistic approach to kidney health.

- Defatted Wheat Germ is rich in vitamin E and provides antioxidant support. Studies show vitamin E is involved in crucial pathways for a healthy kidney's structure and function.²
- Ribonucleic acid – Yeast-derived RNA, as a source of dietary nucleotides, plays a crucial role in supporting immune health.³

FEATURES:

Alfalfa, Buckwheat, Beets, Kidney Beans

Alfalfa

Buckwheat

Kidney Bean

BENEFITS:

While basic nutrition for cats covers their essential needs for energy, amino acids, vitamins, and minerals, whole food-based supplements can help fill any nutritional gaps. This can be especially important for cats going through everyday stressors.

Beets

- Beetroot is rich in betalains, a group of phytonutrients that have preclinical evidence suggesting a positive effect on NrF2 which mobilizes the liver's antioxidant defenses.⁴

Buckwheat

- Buckwheat is rich in anthocyanidins which support antioxidant and inflammatory pathways, and flavonols (quercetin) which promote healthy blood vessels and support antioxidant pathways.⁵

Kidney Bean:

- Kidney bean extract is rich in phenolic compounds such as flavonoids, saponins, hydroxycinnamic acids, catechins and anthocyanins which are dietary antioxidants.⁶

Synergistic Products

Human-Quality Ingredients

Family-Owned Company

Certified Organic Farm

Healthy Soil. Healthy Plants. Healthy Lives.

Our mission of helping people and animals starts on our certified organic farm.

Organic certification ensures that there are no synthetic pesticides and no genetically modified organisms (GMOs) used to grow our crops.

Our expertise in cultivating healthy soil allows us to maximize the nutrient density in our products. This helps us deliver nutrition that's as close to nature as possible and make products that have changed lives for over 95 years.
